

Database Options & Packs

Description

One of the most regularly discussed topic during our Oracle Unlimited License Agreement (ULA) advisory engagements is always about the database options and the management packs.

The discussions are regarding:

- Which database options or pack **to include or not include** in the list of ULA programs?
- What are the **compliance issues** that are possible by non-inclusion of the different options at the time of ULA Certification or renewal ?
- What are the **cost implications** of different options & packs ?

So we made a ready reckoner of the features and availability of the database options and packs.

Currently Available Options & Packs		
Option or Management Pack	Brief Functionality	Included in
Enterprise Edition	Provides comprehensive tools to monitor and optimize the engine, manageability, availability, and security.	Oracle EE
Enterprise Pack	Tools to enhance and extend the Oracle Enterprise Edition and Oracle Enterprise Edition Management Pack.	Oracle EE
Enterprise Pack	Tools to enhance and extend the Oracle Enterprise Edition and Oracle Enterprise Edition Management Pack.	Oracle EE
