Database Options & Packs

Description

One of the most regularly discussed topic during our Oracle Unlimited License Agreement (ULA) advisory engagements is always about the database options and the management packs.

The discussions are regarding:

- Which database options or pack **to include or not include** in the list of ULA programs?
- What are the **compliance issues** that are possible by non-inclusion of the different options at the time of ULA Certification or renewal ?
- What are the **cost implications** of different options & packs ?

So we made a ready reckoner of the features and availability of the database options and packs.

LICENSING ORACLE
BY RYTHIUM TECHNOLOGIES

Currently Available Options & Packs		
Option or Management Pack	Brief Functionality	Introduced in Version
Partitioning Option
